

Defect ID	1/FORMS
Title	Impossible to submit the form due to restricting validation of the DateOfBirth field
Severity	Major
Environment	PROD
Version	n/a
Language	pt_BR
Description	Submit form does not accept correct values for the DateOfBirth box. Intended with date picker and by inserting an input manually.
Steps to reproduce	<ol style="list-style-type: none"> 1. go to the form 2. fill in all the fields with valid data 3. submit the form
Expected result	The form should be accepted and submitted correctly
Actual result	The is not getting submitted due to a warning of an incorrect value of the date-of-birth box
Notes, screenshots	 <p>Error: Validation failed for field "WhatsTheDateOfBirth".</p> <p>Este é um Liferay Forms</p> <p>E aqui temos a descrição do nosso forms</p> <p>Está é a primeira página de nosso forms.</p> <p>Let's party rock.</p> <p>* Indicates Required Fields</p> <p>Qual é o seu nome? *</p> <p>Laura</p> <p>Qual é a data do seu nascimento? *</p> <p>16/06/2016</p> <p>Porque você ingressou na área de testes? *</p> <p>something</p> <p>Cancel Submeter</p>

Defect ID	2/FORMS
Title	No scroll in the Year list of the date picker
Severity	Major
Environment	PROD
Version	n/a
Language	pt_BR, en_US
Description	After opening the Year droplist, it seems impossible to pick a year different from the list's initial view. There is a workaround to pick different values, but it is not very intuitive: one has to pick the top or the bottom value from the list, then go the droplist again and pick from the updated list of the values (repeating until succeeding to the wanted value).
Steps to reproduce	<ol style="list-style-type: none"> 1. go to the form 2. open the calendar and go to the Year box 3. try to move the list up or down (scrolling or arrows)
Expected result	The list values should be dynamically updated with the scrolling movement
Actual result	Impossible to update the list values
Notes, screenshots	

Defect ID	3/FORMS
Title	The calendar box accepts inputs
Severity	Minor
Environment	PROD
Version	n/a
Language	pt_BR, en_US
Description	
Steps to reproduce	<ol style="list-style-type: none"> 1. go to the form 2. manually insert a value into the day-of-birth box
Expected result	The day-of-birth box should be disabled
Actual result	It is possible to insert the value manually

Notes, screenshots	
-----------------------	--

Other noticed defects:

1. en_US form version:
 - 1.1. No cancel/clear button
 - 1.2. No validation for date picker value (possible to pick the future date, there is no information about the limit set for the past dates)
2. pt_BR form version :
 - 2.1. Cancel button has more like a clear form function, appears only when submitting the form with invalid data, does not cancel the petition at any point
3. both versions:
 - 3.1. no limitation for extending the body box frame
 - 3.2. no limitation for the number of characters in text fields
 - 3.3. the name box accepts other than letters alphanumeric characters
